## Summary

Computer Engineer with a foundational background in software development and a specialization in app development using Flutter. Adept in programming languages such as C, C++, Python, and Dart, with hands-on experience creating innovative applications for money management and entertainment, including an app resembling Netflix. Holds a B.Tech in Computer Science and Engineering from the College of Engineering Kalloppara. Dedicated to becoming a remarkable IT professional and continuously improving expertise in the field.

## Objective

Innovative and driven Computer Engineer with a passion for app development and a strong foundation in programming languages including C, C++, Python, and Dart. Seeking to leverage my expertise in Flutter and my experience in creating user-centric financial and entertainment applications to contribute to the success of a forward-thinking company. Eager to apply my technical skills and dedication to continuous learning to solve complex challenges and deliver high-quality software solutions.

## Experience

- 2024 Present  
**Internship-Data Analyst**  
As a Data Analyst intern at Dev Town, I honed my analytical skills by working on data manipulation and visualization, contributing to predictive analysis projects, and ensuring data integrity. This hands-on experience has equipped me with practical knowledge in data analytics, preparing me for future challenges in the field.

## Education

- 2023-2027 Kerala  
**Kerala Technological University(KTU)**  
**BTech in Computer Science and Engineering**
- 2018-2023  
**Technical Higher Seconday School**  
**Physical Science**

## Leadrship Experience

- Elected as the school leader, representing the student body in school-wide events and decision-making processes.
- Collaborated with school administration and faculty to organize events, improving student engagement and participation.
